M/R

Meeting with © KUEHNE

w/r

SUBJECT: Sovmone Austria AFU Program

© KUEHNE introduced subject to [ ] this date with the comment that ZIPPER's entering this field was a proposal made by one of the field agencies (not specified). He pointed out that his immediate reaction to this proposal in general was a negative one. [ ] stated that we have not given any consideration to this idea in connection with his Organization thus far. He also stated that we have no knowledge as to the existence or non-existence of any AFU programs in this area by any Allied agencies. However, since it undoubtedly was a valid subject to consider in the overall question of measures to be taken in the event of hostilities and/or early warning purposes, we would be inclined at least to discuss the matter. [ ] therefore requested that ZIPPER submit a basic paper including a tentative proposal as a point of reference for discussion. This © KUEHNE promised to do.
